W

Dear Cattle Producers and Friends,

Welcome to our 9th annual bull and heifer sale. It's always fun to sit down and write this welcome letter and think of all of you that have helped us to be successful. Thank you from the bottom of our hearts. Our breeding program and our theory behind what we do has not changed. We don't follow fads, but specifically breed our cattle with proven genetics that work. We work to provide real-world cattle for real-world cattlemen. We have always focused on performance and maternal traits with basic profit-driven traits including fertility, longevity, maternal productivity and a strong fleshing-ability. We are constantly striving to improve and progress. We want each and every calf crop to be stronger than the last one. We have taken advantage of embryo transplant on our top cows and feel as if our herd is very quality and consistent between the Angus and SimAngus cattle.

The bulls are developed on a sensible, roughage based ration, allowing them to show their genetic potential without compromising breeding soundness and longevity. The development requires them to perform with fewer inputs and those who don't make that cut are removed from the program.

The female offering raises the bar to a whole new level. They truly represent our most progressive genetics to date. They are out of maternally-proven cows with pathfinders throughout their background. We feel confident they will provide a solid maternal foundation with a lifetime of earning potential. Take hold of these strong producing females to add to your herd.

It has been an honor and a privilege to provide seedstock for your operation. We want you to be satisfied and see successful customers. Again, thank you for being a part of our program. We genuinely look forward to seeing you on sale day.

Sincerely,

Todd and Tricia Grabenstein

VIEWING

All bulls can be viewed anytime before the sale at the ranch by giving Todd 308-325-4362 or Tricia 308-325-5627 a call. You can also check out the videos on our website at www.topguncattle.com.

HERD HEALTH

All cattle will sell with proper health papers for interstate shipment.

ANNUAL BULL & HEIFER SALE

Tuesday, March 28, 2023

1:00pm | Top Gun Cattle Co. | Smithfield, NE

SIGHT UNSEEN

If you are unable to attend our sale, we can arrange to have someone handle your bidding for you. We guarantee your bulls will be purchased at the lowest price possible. Your bids will not be abused. Call any of the representatives listed.

VOLUME DISCOUNT

If you purchase 5 or more bulls, you will receive a 5% discount.

TERMS AND CONDITIONS

All cattle sell fully guaranteed and under the terms and conditions of the American Angus Association.

GUARANTEE

All bulls selling for \$3000 or higher will be guaranteed against breeding injury for the first breeding season. Breeding season is defined as the 90 day period following the first turn out of bulls. If a replacement is available, one will be provided. Otherwise, you will be given credit to use in the following year's sale, less the salvage value of the injured bull. The bull must be inspected by a vet or Top Gun Cattle in order for credit to be given or a bull to be replaced.

ANNOUNCEMENTS

All announcements made from the auction block take precedence over the printed information in this catalog. A supplement sheet with updated information will be provided on sale day.

DELIVERY

If you need assistance delivering your bull, we are glad to help out. Please visit with Top Gun Cattle and we can make arrangements. Bulls over \$5,000 will receive free delivery and bulls below \$5,000 will be delivered for free up to 250 miles. Beyond that, delivery is at cost.

PURCHASERS RIGHTS & DISCOUNTS

Bulls picked up and paid for on sale day will receive a \$50 discount per head.

INSURANCE

Gary Thompson Agency, Inc. will be available sale day if you wish to purchase mortality insurance. They are represented by Matt Newcomb 308-486-5545.

SEmen INTEREST

Top Gun Cattle will be retaining 1/3 semen interest revenue sharing in all bulls selling. The Purchaser of the bull will have full possession and full salvage value.

CALVING EASE

Calving ease is a primary focus of our breeding program. With nearly 1/2 of our bulls in the sale qualifying as heifer bulls according to the AAA, we wanted to provide our rating system, based on actual data, pedigree, EPDs, and experience.

A no miss, sleep through the night and tag calves in the morning kind of bull.

Superior calving ease, should be an excellent choice for heifers.

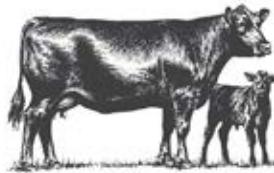

A bull that qualifies as a heifer bull by industry standards.

We recommend these bulls for use on cows.

BIRTH WEIGHT (ACT BW)

WEANING (WW) WEIGHT RATIO, are a direct comparison of one calf to all the others in his contemporary group. A ratio of 100 is average. Embryo transplant calves will have an ET in place of a ratio.

American Angus Association Pathfinder Cow Award

The Pathfinder Angus program was started in 1978 in an effort to identify superior cows in the breed based on their records of performance from Angus Herd Improvement Records (AHIR). In identifying these superior cows, emphasis was placed on early puberty, breeding and early calving, followed by regularity of calving and above-average performance of the offspring.

While outstanding cows can be identified after their first or second calves, the Pathfinder Report requires a minimum of three calves from a cow to determine her regularity of calving and ability to produce superior calves for weaning weight year after year. In addition, an important part of the report is the list of bulls that have sired five or more qualifying females.

The program identifies Pathfinder Cows in herds actively involved in AHIR. First, the female must produce her first calf near the herd's average age for first calving. More specifically, the maximum age accepted for first calving of a Pathfinder Cow is the within-herd average for first calving plus 30 days. The within-herd average is determined separately for each herd on AHIR. As a second criteria, the Pathfinder Cow must maintain a regular calving interval. The maximum calving interval is:

$$365 \text{ Days} + (30 \text{ Days} / \text{Number of Calving Intervals})$$

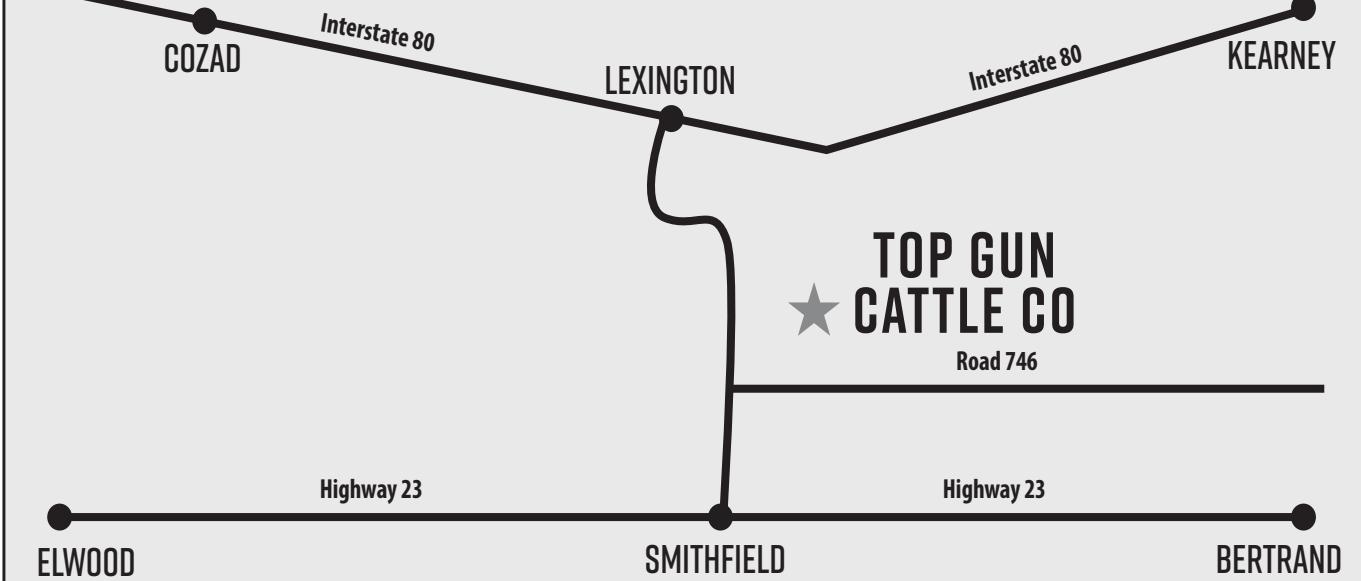

Next, the Pathfinder Cow must produce at least three calves with an average weaning weight ratio of 105 to qualify for the report. A minimum of 10 herdmates or contemporaries must be evaluated together each year to determine the weight ratio. Additionally, her calves must be sired by registered Angus bulls. To continue to qualify each consecutive year, the cow must produce regularly and wean a calf that helps maintain the average weaning ratio of 105 or above. It is pointed out that once a cow is designated Pathfinder, she is always a Pathfinder, even though she might not qualify for listing each year.

Map

Top Gun Cattle Co. | 43307 Road 746 | Smithfield, NE 68976

From Lexington: Head south to Road 433 approximately 8 miles to Road 746.

Then, turn east and we are on the north side of the road.
From Smithfield: We are located approximately 4 1/2 miles straight North taking Road 433. Turn east at Road 746 and we are on the north side of the road.

EXPECTED PROGENY DIFFERENCE (EPD), is the prediction of how future progeny of each animal are expected to perform relative to the progeny of other animals listed in the database. EPDs are expressed in units of measure for the trait, plus or minus. Interim EPDs may appear on young animals when their performance has yet to be incorporated into the American Angus Association National Cattle Evaluation (NCE) procedures. This EPD will be preceded by an "I", and may or may not include the animal's own performance record for a particular trait, depending on its availability, appropriate contemporary grouping, or data edits needed for NCE.

CALVING EASE DIRECT (CED), is expressed as a difference in percentage of unassisted births, with a higher value indicating greater calving ease in first-calf heifers. It predicts the average difference in ease with which a sire's calves will be born when he is bred to first-calf heifers.

BIRTH WEIGHT EPD (BW), expressed in pounds, is a predictor of a sire's ability to transmit birth weight to his progeny compared to that of other sires.

WEANING WEIGHT EPD (WW), expressed in pounds, is a predictor of a sire's ability to transmit weaning growth to his progeny compared to that of other sires.

YEARLING WEIGHT EPD (YW), expressed in pounds, is a predictor of a sire's ability to transmit yearling growth to his progeny compared to that of other sires.

MATERNAL MILK EPD (MILK), is a predictor of a sire's genetic merit for milk and mothering ability as expressed in his daughters compared to daughters of other sires. In other words, it is that part of a calf's weaning weight attributed to milk and mothering ability.

YEARLING BULLS

Functional traits are important and that is exactly what we strive for at Top Gun Cattle. You know many of the sires of these bulls, but the maternal side is a major contributor to what you are looking for. The longer the animals remain productive in a herd, the fewer replacements are needed.

The efficiency of the entire cow-calf system is highly dependent on the efficiency of the cow herd. We raise cows that work for us, we don't work for them.

Angus	

Why SimAngus?

Hybrid Vigor gives the boost in performance that results from crossbreeding. Normally, the performance of the offspring is greater than the average performance of the two parents.

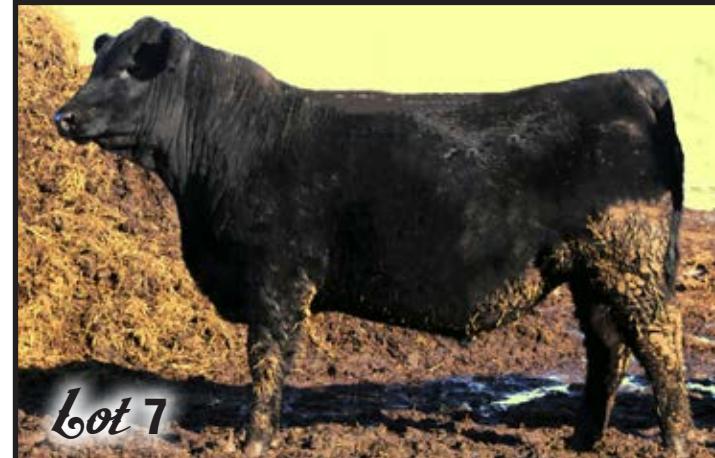

We feel like we have added some extra pounds at weaning, yet we have a very uniform herd of cattle. When you put them all together with our Angus cattle, it's hard to tell which are Angus and which are SimAngus.
That's our goal....a uniform performance herd!

CALVING EASE
★

*We pride ourselves in docile cattle.*

TOP GUN

Cattle Co.

We know that good heifers make good cows, the kind that stay in the herd for their entire production lives. You'll find these heifers have maternal calving ease, weaning weight, strong heifer pregnancy and maternal weight. Those factors reduce overall cost, so buying good heifers only makes sense. EPD's having strong milk production, good structure, phenotype, and disposition that take a lot of the mystery out of what makes a good replacement heifer.

We like the offering we have put together for you and are confident they will make long lasting cows.

HEIFERS

Strong Maternal Genetics....
building functional, profitable cows.
